Professional Summary

Full Stack Developer with 5 years of experience building scalable and responsive web and mobile applications. Expertise in **Node.js**, **React.js**, **Next.js**, **Flutter**, **SQL/NoSQL** databases, and microservices. Strong problem-solving and debugging skills, with recognition for consistent excellence through Star of the Month awards. Skilled in **Agile** development, DevOps, and real-time communication systems.

Experience

Novac Technology Solutions, Chennai - **Senior Software Engineer** | Aug 2021 - Present

- Built and maintained scalable enterprise apps using **React.js**, **Next.js**, **Node.js**, **SQL**.
- Implemented real-time **WebSocket** features (chat, notifications).
- Developed and deployed **Flutter** apps to **Google Play & Apple App Store**.
- Designed microservices architecture with **MongoDB**, **Redis**.
- Managed deployments with **NGINX**, **PM2**, **Jenkins CI/CD** on Linux/Windows servers.
- Collaborated in **Agile** teams using **JIRA**, **GitHub**, and **Bitbucket**.

Projects

Shriram Automall India Limited - Vehicle Auction & Service Management System | Mar 2026 - Present

- Developed a web-based automobile auction platform for buying and selling vehicles through physical auctions.
- Implemented auction workflows where buyers can participate and place bids on vehicles.
- Built modules for vehicle-related services such as Parking Management, Documentation, and other value-added services.
- Developed responsive and user-friendly interfaces using **React.js** to enhance the customer experience.
- Created **REST APIs** and backend business logic using **Node.js** and integrated with **SQL** databases.
- Collaborated with the client to understand business requirements and deliver new features in **Agile** sprints.
- Improved application performance, usability, and overall user experience through continuous enhancements.

LMS Platform - Learning Management System | May 2025 - Feb 2026

- Full-scale LMS for Admin, Trainer, and Learner workflows with 5+ integrated modules.
- User Management with granular permissions and super-admin controls.
- Asset Management for centralized tracking and audit-level visibility.
- Question & Test Management with advanced MCQs, timed exams, and AI-assisted proctoring.
- Course Management with multi-level lessons, prerequisites and progress tracking.
- **React**-based **shell application orchestrating** independent **micro-frontends** for each module.
- Microservices-aligned frontend synced through **Redux** for unified state and navigation.
- Backend built on **Node.js + Knex** for complex queries and modular service structure.
- **WebSockets** for real-time monitoring, proctoring, and user activity alerts.
- Permission middleware ensuring secure, role-based access across modules.

RM-Portal - Relationship Management System (Shriram Group) | Feb 2024 - May 2025

- Centralized platform for 10,000+ Relationship Managers across divisions.
- Secure **authentication (JWT)**, scheduling, distributor assignment.
- Excel-based uploads using **Sequelize + MySQL** reduced manual work by 40%.
- **Redis** integration for scalability; email notifications via **Nodemailer**.
- SEO-friendly frontend with **Next.js** and CMS dashboard with **React + Redux**.
- Result: Reduced reporting errors, improved productivity and adoption across 5+ units.

TechBrewers - Internal Tech Competition App | Oct 2021 - May 2022

- Cross-platform **Flutter** app (Android/iOS) enabling employees to share ideas.
- Intuitive UI for submissions, voting, collaboration.
- Published to **Play Store & App Store** ensuring compliance.
- Result: Boosted employee engagement and knowledge sharing.

Refresh - Event Management App | Dec 2024 - Feb 2025

- Cross-platform **Flutter** app for corporate events.
- Allowed users to view schedules, register, and participate in activities.
- Integrated push notifications for real-time updates.
- Result: Increased employee participation by 35%.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), jQuery, React.js, Next.js, Micro-Frontend Shell Architecture

Backend: Node.js (Express.js, Pug/Jade), RESTful APIs, WebSockets, Sequelize ORM, Knex

Mobile: Flutter (iOS & Android)

Databases: MySQL, MongoDB, Redis

DevOps & Tools: GitHub, Bitbucket, Jenkins, Nginx, PM2, Postman, JIRA

Additional Tools: Visual Studio Code, npm, Android Studio

Education

RVS College of Arts & Science, Coimbatore - MCA

JUN 2019 - APR 2021

Focused on Full Stack Development **with MERN Stack, React Native, Advanced Web Technologies, HTML, CSS and JavaScript.** (Grade - 88%)

Park's College of Arts & Science, Tirupur - BCA

JUN 2016 - APR 2019

Focused on Data Science Technology, Web Design, Programming Languages, Data Structures and Algorithms. (Grade - 78%)

Achievements

- Star of the Month - Novac Technology Solutions (Dec 2023 & Jun 2024)
- Published multiple apps on Play Store & App Store

Courses

- HTML, CSS & JavaScript - LinkedIn Learning
- React Hooks Training - LinkedIn Learning
- Flutter Essential Training - LinkedIn Learning
- Node.js Web Development - LinkedIn Learning

Languages

- Tamil (Native)
- English
